Facilities investment	3,039	2,677	4,053	75.0
Depreciation	3,422	3,309	3,782	90.5
R&D expenses	4,579	4,365	4,253	107.7

Domestic

The number of new housing construction starts and the floor area of non-residential building starts in markets related to our Industrial Equipment segment showed a declining trend.

Overseas

In the United States, housing construction starts showed a modest recovery in the most recent period; however, overall conditions remained sluggish, mainly due to persistently high mortgage interest rates and rising material prices. By contrast, construction investment in the non-residential market, mainly in infrastructure-related projects, remained steady. In Europe, the economic recovery continued, and the construction market also continued to show improvement, as seen in developments such as increased infrastructure investment in Germany.

Reference indices

Number of new housing construction starts

- Down 6.5% YoY for the period from January to December 2025 (Owner-occupied: -7.7%, Rental: -5.0 %, Unit sales: -7.6%)

→ Negative effect on the industrial equipment business (wooden structure related)

Floor area of construction starts of non-residential structures / Supply and demand for skilled construction workers

- Down 7.9% YoY for the period from October 2024 to September 2025 (Offices: -27.7%, Stores: -5.1%, Factories: -20.0%, Warehouses: +3.7%)
- The supply and demand of skilled rebar workers (for construction sites) is currently in a state of excess supply.

→ Negative effect on the industrial equipment business (concrete structure related)

Currency exchange rates

- 1 USD = 150.24 JPY, 1 EUR = 173.78 JPY (previous year: 1 USD = 152.75 JPY, 1 EUR = 163.76 JPY)
- Foreign exchange sensitivity in sales (annual conversion) *Planned value for FY 2026
USD: 240 million JPY, EUR: 110 million JPY
- Foreign exchange sensitivity in profit (annual conversion) *Planned value for FY 2026
USD: 90 million JPY, EUR: 110 million JPY

Number of new housing construction starts in the U.S.

- The annualized rate is 1,398,000 units in January 2026, 1,356,000 units in February 2026, 1,502,000 units in March 2026. (Previous year—January: 1,358,000 units, February : 1,490,000 units, March : 1,355,000 units)

Industrial Equipment Segment : Business Results for FY 2025

- Domestic industrial equipment business ■ Overseas industrial equipment business
- Home environment equipment business — Segment profit rate

(unit: millions of yen, %)

Rebar tying tool “TWINTIER” Series

- Domestic industrial equipment business ▶ Despite challenging external conditions, such as a decline in the floor area of new construction starts, sales of TWINTIER rebar tying tools and their consumables remained steady. However, sales of consumables for tools for wooden structures decreased due to a decline in new housing construction starts.
- Overseas industrial equipment business ▶ Sales of rebar tying tools and consumables increased significantly in Europe and the United States, driven by increased demand for mechanization due to labor shortages at construction sites and by promotional activities.
- Home environment equipment business ▶ Sales of our mainstay heater-ventilator-dryer for bathrooms, DRYFAN, increased in the replacement market for renovation and replacement, which we are focusing on, and also remained steady for some OEM customers.

Industrial Equipment Segment: Changes in Net Sales by Quarter

Office Equipment Segment: Business Results for FY 2025

- Domestic office equipment business
- Overseas office equipment business
- Auto stapler equipment business
- Segment profit rate

New Model Tube Marker "LETATWIN"

Dedicated Consumables for New Model of "LETATWIN"

Domestic office equipment business

Sales of stationery-related products and office equipment remained sluggish.

Overseas office equipment business

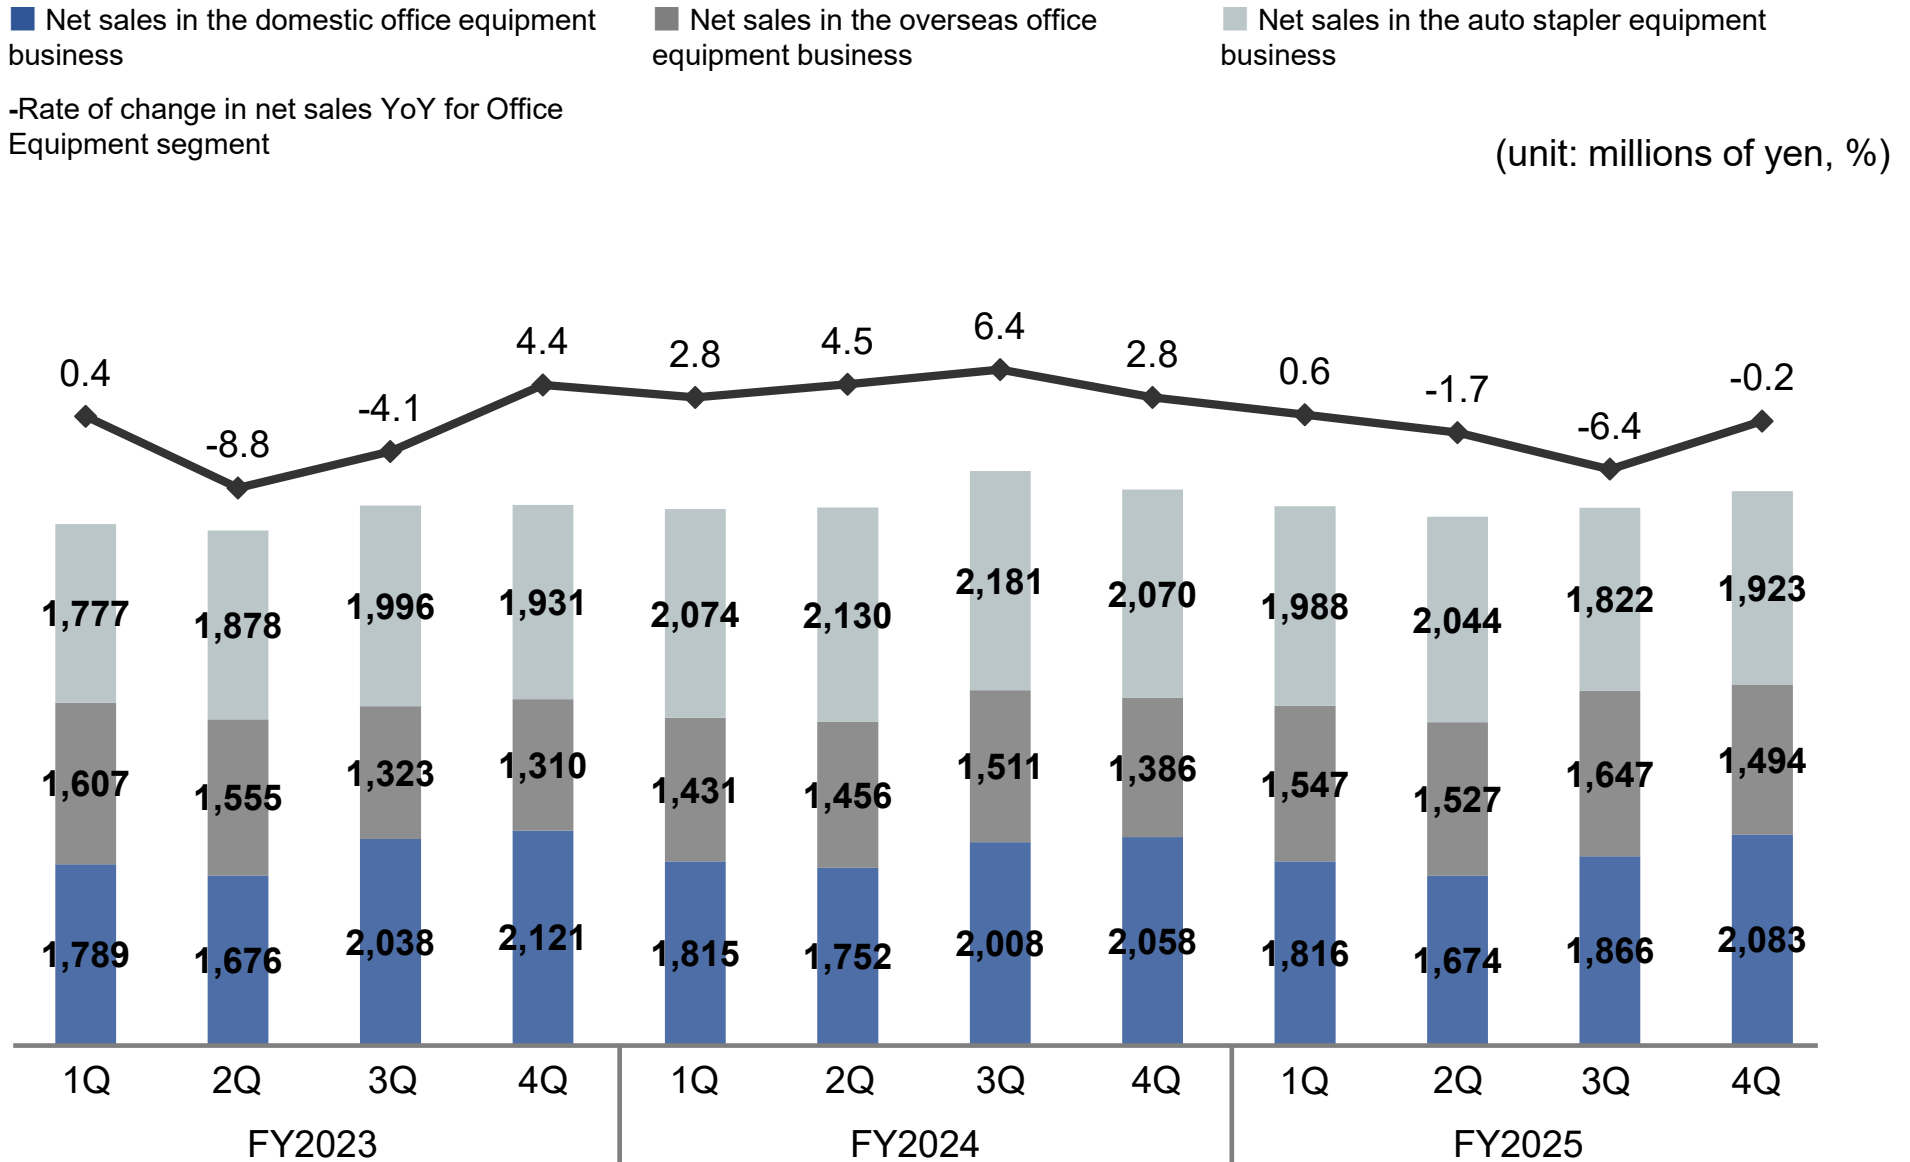

Sales of stationery-related products remained steady. Additionally, sales of labelling and signage products, such as sign and label printing machines BEPOP, increased, driven by factors such as attracting prospective customers through increased participation in exhibitions in Europe.

Auto stapler equipment business

Sales of both machines and consumables decreased due to a slowdown in orders from customers, due to sluggish market conditions caused in part by the impact of US tariff measures.

Office Equipment Segment: Changes in Net Sales by Quarter

HCR Equipment Segment: Business Results for FY 2025

■ Net sales by HCR Equipment segment
— Segment profit rate
(unit: millions of yen, %)

Wheelchairs for overseas market

Multifunctional Wheelchairs Modern Series

HCR Equipment segment

Sales of wheelchairs for the rental market in China decreased, and sales in the domestic market stagnated due to issues occurring in some new products, resulting in decreased revenue.

HCR Equipment Segment: Changes in Net Sales by Quarter

Changes in Quarterly Net Sales by Overseas Region

■ Net sales in North America ■ Net sales in Europe
■ Net sales in Asia and Others — Total overseas net sales (rate of change YoY)

(unit: millions of yen, %)

Note: Includes overseas net sales for auto stapler equipment business.

Strong sales of tools for concrete structures with a focus on the rebar tying tool business

- Sales of tools for concrete structures: **¥42.7 billion** (¥6.2 billion in Japan, ¥36.5 billion overseas)

Growth of **23%** over the previous year / The achievement rate of the Initial plan is **119%**

Labor shortages at construction sites promoted the introduction of rebar tying tools

Overseas

North America

- Driven by introduction to new users and by replacement and additional purchases from existing users, sales continued to grow.
- Sales of tools and consumables remained strong, supported by steady market conditions in the non-residential market and promotional activities.

Europe

- Sales in our main markets, Germany and Nordic countries, remained steady. In addition, results also grew in Eastern and Southern Europe.
- Promotional activities across European countries resulted in a significant increase in tool sales.

Japan

- Although the floor area of construction starts for concrete structures was sluggish, thanks to increase in the cumulative number of tools in operation, sales of consumables remained steady.
- Promoted user-focused proposal activities to expand the range of applications for rebar tying tools, leveraging new products such as the Large Jaw models and Extra Large Jaw models launched in 2025.

Business Plan for FY 2026

We will continue to transform our business portfolio toward FY 2030 and aim to sustainably increase shareholder value and corporate value.

Net sales	¥99.6 billion
Operating profit	¥17.5 billion
ROE	12.6 %
PBR	2.5 times
Overseas sales ratio	52.3 %

Net sales	¥105.5 billion
Operating profit	¥18.8 billion
ROE	12.3 %
PBR	3.0 times
Overseas sales ratio	53 %

Net sales	over ¥110.0 billion
Operating profit	over ¥20.0 billion
ROE	over 12.0 %
PBR	over 2 times
Overseas sales ratio	over 55.0 %

Create the Future

— Maximize corporate value by improving business profitability and return on capital —

1. Business Strategy

(1) Further growth of overseas businesses

(2) Strengthening of domestic businesses

(3) Commercialization of new businesses

2. Strengthening Management Infrastructure Strategy

(1) Sustainability management (human capital)

(2) DX promotion

(3) Facilities investment

3. Growth Investment Strategy

(1) Business expansion investment

(2) R&D investment

1. Business Strategy		Recognition	Topics
(1)	Further growth of overseas businesses	Favorable progress	<ul style="list-style-type: none"> • Sales of tools for concrete structures, mainly rebar tying tools, achieved 119% of the Initial plan, showing steady growth. • Overseas sales increased 17% year on year to ¥52.0 billion.
(2)	Strengthening of domestic businesses	Issues remain	<ul style="list-style-type: none"> • Due to factors such as shortages of certain components and shipment suspensions by our customers, our domestic office equipment business remained sluggish. We are focusing on expanding sales of labelling and signage products in aim to improve profitability. • The HCR Equipment segment posted a loss due to sluggish market conditions etc. We will continue to make efforts to secure stable profits by expanding sales of new products.
(3)	Commercialization of new businesses	In progress	<ul style="list-style-type: none"> • Launched “Rentool,” a subscription and rental service for tools. Nationwide expansion started in May 2025. • We are continuing to examine the commercialization of the Autonomous Mobile Tying Robot and the Rebar Tying Unit for Automation exhibited at trade shows.

Estimated market size of Rebar Tying Tool Business

Changes in sales of tools and consumables for concrete structure

(unit: billions of yen)

Overseas Domestic

Sales of tools and consumables for concrete structures continued to grow thanks to launch of TWINTIER in FY 2017. Results in FY 2025 were ¥42.7 billion, which were approximately five times the size of business from ¥8.8 billion in FY 2016.

Priority Policies

While strengthening the competitive advantages of products, etc., promote the development of sales channels and users in untapped markets

Domestic and overseas tools and consumables for concrete structures : Net Sales

¥42.7 billion
(Results FY2025)

¥47.0 billion
(Plan FY2026)

Increase of ¥8.0 billion from the Previous plan※ of ¥39.0 billion

※Plan announced on April 30, 2025

Production	Continue investment to increase production of consumables	<ul style="list-style-type: none"> • Improvement of existing production equipment capacity for consumables “tie wires.” • Enhancement of production capacity for consumables to meet market demand.
Development	Enhance product lineup	<ul style="list-style-type: none"> • Launched new products such as the new model TWINTIER battery-operated rebar tying tool (Extra large jaw model) and cordless wire mesh cutter. • Expand overseas rollout of the new TWINTIER large jaw model, which launched domestically in October 2025.

Areas	Activity Policy	Activity status
Japan	Expand application	<ul style="list-style-type: none"> Leveraging new products such as the “Large Jaw model” and “Extra Large Jaw model,” implement proposals for mechanization from the perspective of improving productivity for applications that are not mechanized.
United States	Dealer training Acquire new users	<ul style="list-style-type: none"> Continue strengthening sales capabilities by training dealers. Promote on-site demonstration activities for users who have not yet adopted the product in collaboration with dealers.
Europe	Develop sales channels in untapped markets	<ul style="list-style-type: none"> Continue strengthening of sales expansion activities in Eastern and Southern Europe. Promote the development of sales channels in the civil engineering and infrastructure markets.
Oceania	Expand penetration	<ul style="list-style-type: none"> Continue sales expansion activities in Australia in cooperation with local distributors.
ASEAN, Middle East	Search for new markets	<ul style="list-style-type: none"> Continue market developments, including sales channels, through participation in exhibitions and other activities.

Industrial Equipment Segment

Priority Policy

Continue to expand business with a focus on domestic/overseas rebar tying tool business

- Acquire new users with a focus on the non-housing market
- Expand applications in construction and civil engineering markets

Office Equipment Segment

Priority Policy

Secure profitability by expanding labeling and signage products and overseas markets

- Expand sales of labeling and signage products such as sign and label printing machine BEPOP and tube marker LETATWIN new models in the European, American and Domestic markets
- Secure stable sales of stapler-focused stationery-related products in ASEAN region

HCR Equipment Segment

Priority Policy

Achieve stable profitability through continued earnings improvement activities and expand sales of new products

- Improved profitability driven by the launch of high value-added new products
- Productivity improvements and in-house production at factory in China

Tube Marker 「LETATWIN LM-3000PRO」

- New products in the Tube Marker “Letatwin” series, which are included in labeling and signage products.
- Our first “Desktop” tube marker capable of handling high-volume tube printing in offices.
- Launch in Japan in March 2026, with plans to expand mainly into overseas markets, particularly Europe.
- By promoting sales expansion of both the machine and the consumables, we aim to maintain and improve the profitability of the Office Equipment Segment.

About the Tube Marker “LETATWIN”

A dedicated printer that prints letters and numbers on tubes and tapes to identify where electric wires inside control panels and distribution boards used to control machinery and equipment in factories, offices, and other buildings are connected.

high-visibility new square-type consumables

Concerns over the situation in the Middle East

- Increases in housing prices and construction delays due to shortages of construction materials
- Safety concerns in Middle Eastern countries
- Disruptions in maritime and air transportation
- Sharp increases in raw material prices
- Shortages of raw materials

Impact (Risks) on the Company

- Decline in net sales in the Industrial Equipment Business and the Home Environment Equipment Business
- Restrictions on activities in Middle Eastern markets (delays in developing new customers/markets)
- Increase in transportation costs
- Increase in procurement costs
- Destabilization of product supply

Acquisition of Own Shares

Acquisition Reason	: To enhance shareholder returns and improve capital efficiency.
Type of shares	: Common shares of the Company
Total number of shares	: 4,000,000 shares (maximum) (Proportion of the total number of shares issued excluding treasury shares: 2.22%)
Total amount of acquisition costs	: 7,100,000,000 yen (maximum)
Acquisition period	: From May 1, 2026 to December 31, 2026
Method of acquisition	: Market Purchase of Own Shares including Off-Auction Own Share Repurchase Trading System (ToSTNeT-3)

Implementation of Capital Policy during the Medium-Term Management Plan (FY2024-2026)

November 2024	: Public offering of shares (1,437,200 shares, including over-allotment)
December 2024	: Cancellation of own shares (1,000,000 shares)
January to April 2025	: Acquisition of own shares (589,100 shares, approximately ¥2.4 billion)
August to November 2025	: Acquisition of own shares (996,300 shares, approximately ¥5.5 billion)
April 2026	: Implementation of stock split (4-for-1 stock split of our common stock)

Our Company has positioned returning profits to shareholders as one of the highest priority management policies. Our Company has its basic policy on profit distribution to “expand profits from business activities through sustainable growth and distribute profits in a stable manner over the long term.”

Based on this policy, in consideration of factors such as the current financial situation, improved business profitability, and the level of ROE, etc., we have revised our dividend policy as follows.

Former Dividend Policy (until FY 2025)

Guideline of a ratio of dividends to net assets of 5.0% and a dividend payout ratio of 50%, as based on consolidated financial results.

New Dividend Policy (changed from FY 2026)

Guideline of a ratio of dividends to net assets of 6.0% and a dividend payout ratio of 50%, as based on consolidated financial results.

Dividend Policy: Dividends per Share(After the Stock Split)

(unit: yen)

For the FY 2025, planning to increase the annual dividend per share by **¥34** from the previous fiscal year, bringing it to **¥148*** per share.

April 1, 2026 : Implementation of stock split

For the FY2026, an annual dividend of **¥40** per share is planned.

* We conducted a 4-for-1 stock split of our common stock, effective April 1, 2026. The bar graph for dividends per share is presented on the assumption that the stock split was implemented at the beginning of the fiscal year ended March 31, 2007.

Scheduled Planned
